

Virginia Department of Rail and Public Transportation

Limited English Proficiency (LEP) Plan

August 1, 2015

INTRODUCTION

This Limited English Proficiency (LEP) Plan will serve as a guide in addressing responsibilities as a recipient of federal financial assistance from the Federal Transit Administration (FTA) concerning the needs of individuals with limited English language skills. This plan was prepared in accordance with Title VI of the Civil Rights Act of 1964, 42 U.S.C. 2000d, et seq., and its implementing regulations, which state that no person shall be subjected to discrimination on the basis of race, color, or national origin under any U.S. Department of Transportation (USDOT) assisted program or activity because they face challenges communicating in English.

On Aug. 11, 2000, President William J. Clinton signed an executive order, Executive Order 13166: Improving Access to Service for Persons with Limited English Proficiency, to clarify Title VI of the Civil Rights Act of 1964. The executive order was issued to ensure accessibility to programs and services to otherwise eligible individuals not proficient in the English language.

The executive order stated that individuals with a limited ability to read, write, speak, and understand English are entitled to language assistance under Title VI of the Civil Rights Act of 1964 with respect to a particular type of service, benefit, or encounter. These individuals are referred to as LEP or Limited English Proficiency. The executive order states that:

“Each federal agency shall prepare a plan to improve access to its federally conducted programs and activities by eligible LEP persons. Each plan shall be consistent with the standards set forth in the LEP Guidance, and shall include the steps the agency will take to ensure that eligible LEP persons can meaningfully access the agency’s programs and activities.”

Not only do all federal agencies have to develop LEP plans as a condition of receiving federal financial assistance, recipients have to comply with Title VI and LEP guidelines of the federal agency from which funds are provided. This includes the USDOT, Federal Highway Administration (FHWA), FTA, Department of Justice (DOJ), and the Federal Railroad Administration.

Federal financial assistance includes grants, training, use of equipment, donations of surplus property, and other assistance. Recipients of federal funds range from state and local agencies to nonprofits and organizations. Title VI covers the recipient’s entire program or activity. This means all of a recipient’s operations are covered, even if only one part of the recipient’s organization receives the federal assistance. Simply put, any organization that receives federal financial assistance is required to follow this executive order.

The USDOT published “Policy Guidance Concerning Recipients’ Responsibilities to Limited English Proficiency” in the Dec. 14, 2005, Federal Register. The guidance explicitly identifies the Virginia Department of Rail and Public Transportation (DRPT) as an organization required to follow Executive Order 13166.

“The guidance applies to all DOT funding recipients, which include state departments of transportation, state motor vehicle administrations, airport operators, metropolitan planning organizations, and regional, state, and local transit operators, among many others. Coverage extends to a recipient’s entire program or activity; i.e., to all parts of a recipient’s operations. This is true even if only one part of the operation receives federal assistance. For example, if DOT provides assistance to a state department of transportation to rehabilitate a particular highway on the National Highway System, all of the operations of the entire state department of transportation – not just the particular highway program or project – are covered by the DOT guidance.”

To meet Title VI and LEP requirements, DRPT will evaluate, on a continual basis, activities that would be appropriate for compliance with LEP requirements. The FTA references the DOT LEP guidance in its Circular 4702.1A, “Title VI and Title VI-Dependent Guidelines for FTA Recipients,” which was published on April 13, 2007. Chapter IV part 4 of this Circular reiterates the requirement to take responsible steps to ensure meaningful access to benefits, services, and information for LEP persons and suggests that FTA recipients and subrecipients develop a language implementation plan consistent with the provisions of Section VII of the DOT LEP Guidance.

PLAN SUMMARY

The Civil Rights Division of the DOJ has developed a set of elements to assist agencies designing an LEP policy or plan. For the purposes of this plan, DRPT defines persons with Limited English Proficiency (LEP) as those individuals who were identified in the U.S. Census 2006-2010 American Community Survey as having their ability to speak English as “not well” or “not at all”. DRPT’s LEP Plan addresses the following elements to ensure meaningful access to DRPT services and activities for persons with limited English proficiency. These elements include:

1. Identifying LEP persons who need language assistance.

DRPT’s Public Participation Plan provides the program and project level basis for determining the need for public involvement and public engagement.

2. Identifying ways in which language assistance will be provided.

DRPT will provide oral and written translation; written interpretation and translation; and sign language, if requested, or as a result of an LEP analysis on any given project or projected program, requiring translation or interpretation when not cost prohibitive.

3. Training staff and others.

All DRPT staff, especially those involved in public outreach and public involvement, will receive training on identifying LEP populations and providing LEP translation and interpretation.

Subrecipients and MPOs must provide LEP services to be in compliance with Title VI and Executive Order 12898. Subrecipient reviews will be conducted to ensure compliance with Executive Order 12898, Limited English Proficiency.

ASSESSMENT OF NEEDS - FOUR FACTOR ANALYSIS

The DOT guidance outlines four factors recipients should apply to the various kinds of contacts they have with the public to assess language needs and decide what reasonable steps they should take to ensure meaningful access for LEP persons:

1. Assessment of the number and proportion of LEP persons likely to be served or encountered in the eligible service population.
2. Assessment of the frequency with which LEP individuals come into contact with DRPT programs.
3. Assessment of the nature and importance of the program or services provided by DRPT to the LEP population.
4. Assessment of the resources available to DRPT and the overall cost to provide LEP assistance.

The greater the number or proportion of eligible LEP persons; the greater the frequency with which they have contact with the program, activity, or service; and, the greater the importance of that program, or service, the more likely enhanced language services will be needed. The intent of federal guidance is to suggest a balance that ensures meaningful access by LEP persons to critical services while not imposing undue burdens on small organizations and local governments.

The guidance from the USDOT is modeled after the DOJ’s guidance and requires recipients and subrecipients to take steps to ensure meaningful access to their programs and activities to LEP persons.

The Four-Factor Analysis

Each of the following factors was examined by DRPT to determine the level and extent of language assistance measures required to sufficiently ensure meaningful access to public services within the scope of DRPT’s services. Recommendations are then based on the results of the analysis.

Factor 1: Assessment of the Number and Proportion of LEP Persons Likely to be Served or Encountered in the Eligible Service Population

The U.S. Census Bureau has a range of two classifications of how well people speak English. The classifications are (1) “very well,” and (2) “less than very well”. For planning purposes, DRPT considers individuals who speak English less than very well as having Limited English Proficiency or LEP.

DRPT used this data to determine how best to disseminate information that is accessible to persons with limited English proficiency. According to the U.S. Census 2009-2013 American Community Survey, English was the only language spoken by 6,459,826 people, or 85.1 percent of the population as displayed in Table 1. The LEP four factor analysis shows 425,088 people, or 5.6 percent of the population, in Virginia speak English “les than very well”. Based on the relatively low percent statewide, the need to address the LEP population is somewhat limited.

Table 1 - Virginia's Language Use and English-Speaking Ability for the Population Five Years and Older

2009-2013 American Community Survey: 5-Year Estimates (Table S1601)

Virginia Total Population (5 years+)	Speak Only English at Home		Speak Non-English at Home		English Ability - Very Well		English Ability - Less Than		Speak Spanish at Home	
	Count	Percent	Count	Percent	Count	Percent	Count	Percent	Count	Percent
7,590,865	6,459,826	85.1%	1,131,039	14.9%	7,165,777	94.4%	425,088	5.6%	506,648	6.7%

The Spanish speaking classification makes up approximately seven percent (6.7%) of the total population, and is, by far, the largest LEP group in Virginia. All service requests to DRPT have been for Spanish translation. Therefore, the DRPT’s focus will be on targeting this community. Language assistance will be made available to other limited English speaking individuals in the community as the need arises.

Appendix A illustrates Virginia’s range of the four classifications by County and City to better understand where concentrations of LEP individuals may live within the

Commonwealth. This exercise revealed that forty-seven counties and cities (out of 134) have more than 1,000 individuals or 5% or greater who speak English “less than very well”. From this group, in sixteen of the jurisdictions the LEP language group constitutes five percent of the population. Most areas with the five percent concentrations are in urban areas, and ten out of the sixteen are located in the D.C. suburbs. Figure 1 provides a map of Virginia and highlights these counties and cities.

Appendix B shows a breakdown of Virginia’s population by race or ethnicity in the counties and cities for each eligible LEP language group that constitutes five percent or that has more than 1,000 individuals who speak English “not well” or “not at all”. Appendix B is a set of tables for each of these counties and cities documenting the breakdown of population for who speak “non-English” at home – English ability is categorized as either “very well” or “less than very well”. This detailed analysis helps identify potential LEP persons to ensure that they are included in the transportation public involvement process. All programs/projects must consider the number and percent of persons in regards to their English language skills within the planning area for inclusion in public involvement and public engagement meetings.

For each program, project, service, or activity, the data in this plan will be used to help identify the number of LEP, minority, and low-income populations by county and city within the Commonwealth to ensure meaningful public involvement. DRPT’s Public Participation Plan will be followed to ensure all groups have notification and access.

Factor 2: Assessment of Frequency with Which LEP Individuals Come Into Contact with the Transit Services or System

At present, DRPT has not received any requests for assistance. In addition to this, no determination can be made as to why there have been zero requests; however, additional efforts will be made to ensure that DRPT’s customers are aware of services that are available.

Each DRPT and subrecipient program/project must be evaluated in relationship to the number of persons who are within the program/project area and the number of times they have frequented the program or activity. For public meetings, a sign-in sheet or survey is to be utilized to determine the demographic and frequency of participation. Planners and project managers provide notice to LEP persons within the project/program area so that they are aware of any programs/projects that may affect their quality of life.

Programs, services, and activities that have potential impact for LEP persons include, but are not limited to:

- Public involvement and public engagement meetings/hearings for projects affecting LEP communities or individuals
- Transit subrecipients
- Internet access: DRPT Web site must be accessible to LEP persons
- DRPT's phone communications: notices/greetings in languages other than English
- Visits to DRPT's office(s)

Factor 3: Assessment of the Nature and Importance of the Transit Services to the LEP Population

As the state public transportation agency responsible for coordinating the Statewide Public Transportation Planning process, DRPT must make sure that all segments of the population, including LEP persons, have been involved or have had the opportunity to be involved with the planning process. The impact of proposed transportation investments on underserved and under represented population groups are part of the evaluation process. DRPT provides oversight and helps ensure that LEP and other protected classes of persons are not overlooked in the transportation planning process.

DRPT's main function is to support cooperative, comprehensive, and continuing public transportation planning and services as outlined in federal transportation acts. In doing so, DRPT develops the Six-Year Improvement Program (SYIP), the Statewide Transportation Improvement Plan (STIP), Public Transportation and Transportation Demand Management Grant Program Application Guidance, and as needed other studies. Another key function is oversight of their subrecipients.

- The SYIP is a plan that allocates funding for public transportation facilities and commuter and public transportation programs intended to be implemented through a combination of State, Federal, and local funding.
- The Public Transportation and Transportation Demand Management Grant Program Application Guidance provides application guidance regarding the various state and federal public transportation grant programs administered by DRPT. The document contains two major parts:
 1. An overview of the grant programs administered by DRPT, a description of DRPT's public transportation investment policy, and a calendar describing each step in the grant application process.
 2. A description of each grant program including: eligible recipients and expenses, match ratios, application evaluation criteria, and the application procedure.
- DRPT is required by the FTA to ensure that recipients of FTA assistance comply with federal requirements. To meet this federal mandate, DRPT conducts

periodic reviews of its grantees. Additional objectives of the reviews are to ensure compliance with state requirements, encourage progress, and identify training and technical assistance needs.

DRPT's most critical services are those related to funding public transportation, public involvement (public information or planning meetings), and the ability to file complaints. LEP persons, low-income populations, minority populations, the elderly, and the disabled must be considered in these processes. DRPT will continue assessing this area by communicating with community organizations that serve LEP persons, as well as by contact with LEP persons themselves.

Factor 4: Assessment of the Resources Available to the Agency and Costs

DRPT serves the entire state of Virginia and is required by federal law to provide access to LEP persons, and to ensure that its subrecipients also provide access. Even subrecipients with very limited resources should have an LEP section in their Title VI Plan with the acknowledgment that demographics change yearly and indicate the number of LEP persons may increase within their specific planning area.

According to USDOT Policy Guidance Concerning Recipients' Responsibilities to Limited English Proficient (LEP) Persons published in the Federal Register: December 14, 2005 (Volume 70, Number 239), "Certain DOT recipients, such as those serving very few LEP persons or those with very limited resources, may choose not to develop a written LEP plan."

Costs must be factored into this balancing test as part of the consideration of "resources available." Reasonable steps may cease to be reasonable when the costs imposed substantially exceed the benefits in light of the factors outlined in the U.S. DOJ LEP Guidance. In this case, the needs have been prioritized so that language services are targeted where most needed because of the nature and importance of the activity involved. However, LEP persons have the right to receive language assistance at no cost to them.

To date, DRPT, in coordination with the Virginia Department of Transportation (VDOT) and its subrecipients have expended considerable funds on language services. Language assistance actions include:

- MPO and local subrecipients have created their own LEP/LAP plans with assistance from DRPT
- Google Translate is available on DRPT's website for translation of vital documents
- Translation of vital documents upon request
- Training

- VDOT's language service contractor

DRPT'S PLAN

Considering DRPT's size and scope, LEP individuals in DRPT's statewide services area, and financial resources, it is necessary to provide at least the most basic and cost-effective services available to ensure compliance with Executive Order 13166. Many options were discussed and considered by DRPT staff and the following recommendations were adopted as measures to provide meaningful access to limited English speaking persons:

- Publish the LEP Plan and vital document materials on the DRPT website in languages other than English as warranted.
- Disseminate the LEP Plan to community organizations, governmental entities, and other interested persons, in languages other than English.
- With advance notice of seven calendar days, provide interpreter services at any meeting or public hearing. This will include foreign language and interpreter services for the hearing impaired.
- Place statements in notices and publications that interpreter services are available for meetings, with seven days advance notice.
- Place notices of DRPT's non-discrimination policies and information on the local and federal complaint process on the website in English and other languages via Google Translate and make the notices available at public meetings.
- Translate vital documents in languages other than English according to the safe harbor provision.
- Provide training to DRPT staff on the requirements for providing meaningful access to services for LEP persons.
- Monitor subrecipients to ensure LEP requirements are fulfilled and report annually on the accomplishments related to LEP activities.
- Include a Limited English Proficiency policy in the updates of the DRPT's Public Participation Plan through, 1) statements and notices that interpreters will be provided, upon prior request for language assistance as well as for sign language, and 2) maintenance of a contact list for interpretation and translation providers.

- Utilize the VDOT's Limited English Proficiency Guidelines and Public Participation Plan in conjunction with the DRPT's LEP Plan to identify low-income populations, minority populations, the elderly, and the disabled; who may be part of the LEP population.
- Maintain a list of staff who speak languages other than English and make this list available to all staff. (Appendix C)

Providing Notice to LEP Persons

USDOT LEP guidance says:

Once an agency has decided, based on the four factors, that it will provide language service, it is important that the recipient notify LEP persons of services available free of charge. Recipients should provide this notice in languages LEP persons would understand.

DRPT will provide statements in public information (meetings) and public notices, as outlined in the Public Participation Plan, that persons requiring language or special assistance will be accommodated, with reasonable advance notice to DRPT.

Federal fund recipients have two main ways to provide language services: oral language assistance, either in person or via telephone interpretation service; and, written language assistance. The correct mix should be based on what is both necessary and reasonable in light of the four-factor analysis.

Oral Language Assistance

DRPT will provide LEP persons with oral language assistance in a timely manner at reception desks or when telephone contact is appropriate. Such assistance may take the form of qualified bilingual staff, using the VDOT Central Office of Civil Rights Division language service contractor, or the use of community based organization (CBO) interpreters who are skilled, competent, and objective in interpreting.

Employment of bilingual staff in divisions and projects is attempted, when feasible, where the percentage of LEP customers or potential customers is statistically significant or where the frequency of contact with such persons will provide for efficient and effective communication. A decision to employ bilingual staff should be based on a needs assessment with due consideration given to budget constraints and department policy.

Oral translation competency should be considered when using a translator. In some cases, a family member or volunteer without formal certification might be a good

choice, for instance when teaching an LEP person how to use the bus. In other circumstances, especially those that have the potential to affect a person's rights, a certified interpreter is necessary.

DRPT's oral notifications include:

- Telephone attendant who can provide information about available language assistance services and how to get them.
- Providing notice on non-English-language radio and television about the available language assistance services and how to get them.

Written Language Assistance

Written materials that are routinely provided in English to applicants, customers, and the general public should be translated into languages that are regularly encountered. A "safe harbor" provision regarding the translations of documents is required by the U.S. DOJ. The U.S. DOJ suggests providing written translations of vital documents for each eligible LEP language group that constitutes 5 percent or 1,000, whichever is less, of the population of persons eligible to be served or likely to be affected or encountered. The safe harbor provision applies to the translation of written documents only and does not affect the requirement to provide meaningful access to LEP individuals through competent oral interpreters where oral language services are needed and are reasonable.

Note that some LEP people might have low literacy in their language. Written translations would not be effective or useful in those cases. When evaluating the need for written translation, the literacy level in the LEP population should be determined.

DRPT's written notifications include:

- Signage stating that language assistance is available with advance notice.
- Stating in outreach documents that language services are available from the agency.
- Including notices in local newspapers in languages other than English.

Outreach and Public Participation

DRPT participates in public hearings with VDOT. To stay in conformance with FTA's regulations regarding Title VI, DRPT will work with the media to alert the public on upcoming events as detailed in DRPT's Public Participation Plan. In order to reach the highest number of minority and/or low-income people when planning public meetings,

DRPT and/or its subrecipients shall attempt to hold meetings near bus lines or other modes of public transportation or in neighborhoods identified as having a high percentage of minority/low-income populations. These locations will be given highest priority depending on availability of meeting space and/or cost of facility.

To reach the largest number of minority and low-income communities throughout the Commonwealth, a geographically focused public participation program will achieve the outcomes described in this plan. In addition to traditional methods of communication, DRPT will utilize strategies recommended by community members for a specific neighborhood or population group. By partnering with community groups and local chambers of commerce, DRPT can cost-effectively extend its reach and help partner organizations provide information that is of interest to groups they represent.

DRPT will establish and maintain active work relationships with all relevant local media, including minority-based media in order to communicate pertinent information to DRPT subrecipients and the public. DRPT will coordinate with individual institutions and organizations while implementing community-based public involvement strategies to reach out to members in affected minority and/or low income communities. DRPT shall also provide opportunities for public participation through alternative means other than public meetings or written communication; i.e., personal interview or use of audio or video recording to capture comments and posting that audio/video on DRPT's website.

Subrecipients must put procedures into place to involve minority, low-income, and limited English proficiency populations in their public involvement activities. These procedures must be in compliance with FTA regulations. Subrecipients must submit their procedures to DRPT with their Title VI plan. Eligibility for funding through DRPT is contingent on each subrecipient participating in the Federal Title VI program and ensuring that each is in compliance with FTA regulations.

DRPT's outreach notifications include:

- Working with community-based organizations, libraries, Department of Motor Vehicle, and other stakeholders to inform LEP individuals of recipients' services, including the availability of language assistance services.
- Providing presentations and/or notices at schools and religious organizations.

Vital Documents

Vital documents are those that convey information critically affecting the ability of the service customer to make decisions. Whether or not a document (or the information it solicits) is "vital" depends upon the importance of the project, information, encounter,

or service involved and the consequence to the LEP person if the information in question is not provided accurately or in a timely manner.

DRPT's vital documents are:

- Non Discrimination Statement
- DRPT Grant Programs
- DRPT Grantee Handbook

If individuals are interested in finding out other information about DRPT, they are directed to contact the Public Information Office at 804-786-4440. Additionally, DRPT's website offers Google Translate to navigate users to the Vital Documents posted on the website.

DRPT Staff Training

Training DRPT staff on the policies and procedures of language assistance and how to determine whether a customer needs language assistance services is essential to bridging the gap between policies and actual practices. Training will include how to obtain language assistance services and communication with interpreters and translators.

Specialized training may be required of certain front-line staff who are likely to have considerable interaction with LEP individuals. DRPT staff will be trained on how to recognize potential Title VI issues and to properly respond to Title VI complaints, including those from LEP people on the basis of national origin.

DRPT will include training on assisting LEP persons as part of its sensitivity and customer service training for all new hires. Training information will include:

- A summary of DRPT's responsibilities under the DOT LEP Guidance;
- A summary of DRPT's language assistance plan;
- A summary of the number and proportion of LEP persons in DRPT's service area, the frequency of contact between the LEP population and DRPT's programs and activities, and the importance of the programs and activities to the population;
- A description of the type of language assistance that DRPT is currently providing and instructions on how agency staff can access these products and services; and
- A description of DRPT's cultural sensitivity policies and practices.

All DRPT staff who routinely come into contact with customers, as well as their supervisors and all management staff, will receive annual refresher training on policies and procedures related to assisting LEP persons. DRPT also maintains a list of other languages spoken by staff for utilization in assisting LEP persons.

Monitoring and Updating the LEP Plan

This plan is designed to be flexible and is one that can be easily updated. At a minimum, DRPT will follow the Title VI Program update schedule for the LEP Plan (at least every three years) based on feedback, updated demographic data, and resource availability. However, major updates most likely will not occur until the next Census in 2020 unless the DRPT finds it necessary and crucial for an update before such time.

DRPT will examine and update the LEP Plan based on the following:

- The number of LEP persons encountered annually
- How the needs of LEP persons have been addressed
- Whether local language assistance programs have been effective and sufficient to meet the needs of LEP persons
- Whether the transit system's financial resources are sufficient to fund language assistance resources needed during compliance reviews
- Changes to DRPT's available resources, such as technology, staff, and financial costs changed?
- Whether DRPT has fulfilled the goals of the LEP Plan
- Whether complaints have been received concerning the agency's failure to meet the needs of LEP individuals

SUMMARY OF PLAN

The key to providing meaningful access for LEP persons is to ensure that effective communication exists between the project, activity, or service and the LEP person. To accomplish effective communication, the following actions have been developed:

- Provide for oral language assistance as needed
- Notify LEP customers of the availability of language assistance services
- Translate vital documents in languages other than English according to the safe harbor provision
- Train staff
- Monitor and evaluate access to language assistance
- Monitor subrecipients
