

## Fredericksburg District FY 2020-2025 SYIP Highlights

*We are the Commonwealth's advocate for promoting transportation options to the general public, businesses, and community decision makers.*

DRPT's mission is to facilitate and improve the mobility of Virginia citizens and to promote the efficient transport of goods and people in a safe, reliable, and cost-effective manner. Our primary areas of activity are rail, public transportation, and commuter services. DRPT works with local, regional, state, and federal governments as well as private entities to provide support for projects and programs by:

- Assessing feasibility and environmental impacts of new and expanding services;
- Conducting statewide rail and public transportation studies;
- Planning and programming new services and capital improvement projects; and
- Providing leadership, advocacy, technical assistance, and funding.

### **Fiscal Year 2020-2025 Six Year Improvement Program (SYIP) Highlights Fredericksburg District**

DRPT allocates \$892.3 million in funding for transit, rail, and commuter services in Fiscal Year 2020. In the Fredericksburg District, this includes \$1.5 million in state and \$3.9 million in federal funds for transit as well as \$98.6 million in state and \$35.7 million in federal funds for rail.

### **Transit and Commuter Programs**

Organizations receiving state funding in Fiscal Year 2020 are:

- Bay Aging
- Fredericksburg Regional Transit
- George Washington Regional Commission
- Middle Peninsula Planning District Commission
- Northern Neck Planning District Commission
- Rappahannock Area Agency on Aging
- Virginia Railway Express

### **Amtrak**

Amtrak is DRPT's statewide operator for intercity passenger rail. DRPT funds annual capital and operating expenses for four intercity passenger routes with a total of six daily round trips originating in Newport News, Norfolk, Richmond, and Roanoke. All state-supported intercity passenger rail services the Northeast Corridor, offering a one-seat ride to additional destinations like Philadelphia, New York, and Boston.

## **Long Bridge & I-95 Corridor Improvements**

DRPT's SYIP provides nearly \$131.6 million in Fiscal Year 2020 in state, federal, local, and private funds towards construction of the Long Bridge, I-95 Corridor improvement projects, and related statewide improvements.

The Long Bridge is a two track rail bridge over the Potomac River between Arlington and Washington, D.C., owned and operated by CSX. The bridge is currently at 98 percent capacity during peak hours with all freight, Amtrak, and Virginia Railway Express commuter rail traffic between Virginia and the northeast crossing in each direction. Seventy-six trains cross Long Bridge daily (34 VRE, 24 Amtrak, and 18 CSX) with an anticipated increase to 192 total daily trains by 2040.

The District of Columbia recently completed a Draft Environmental Impact Statement which estimates costs of a new two track bridge upstream at \$1.9 billion. In conjunction with the Long Bridge project, DRPT provides allocations of rail funds for five projects in Northern Virginia.

- Long Bridge Phase 1: 4<sup>th</sup> track in Arlington and Alexandria
- Alexandria VRE Station: Provide ADA compliant pedestrian tunnel and elevator access as well as improve platforms to accommodate two trains simultaneously
- Crystal City VRE Station: Relocate station and construct island platform to serve two trains simultaneously
- L'Enfant VRE Station & 4<sup>th</sup> Track: Construct 4<sup>th</sup> track and island platform allowing the station to serve two trains simultaneously
- 3<sup>rd</sup> Track between Franconia and Occoquan
