

## TRIP – Passenger Amenities and Facilities

### Project Information

---

Passenger amenities and facilities greatly improve the transit rider experience and increase the accessibility of the system. TRIP supports the addition and improvement of passenger related infrastructure. See the most updated DRPT Blue Book for guidance on eligible projects and email [TRIP@drpt.virginia.gov](mailto:TRIP@drpt.virginia.gov) if you have further questions.

#### **Project Type:**

Please give a detailed description of the project, project deliverables, milestones, and end product.

#### **Project Description:**

Please give a projected total project cost.

#### **Project Cost:**

Please either attach a map file to your application email, or provide an address, x/y coordinates, or a description where the project is located. If the project includes multiple locations, please indicate all of them.

#### **Project Location:**

### Project Schedule

---

#### **Mandatory Milestones:**

Project Start:

Project End:

#### **Mandatory Milestones for Construction:**

##### **Is this a Construction Project?**

##### **If yes, provide the following milestone information:**

Date RFB-IFB Out for Bid:

Date Contract Awarded:

Date Construction Begins:

Date Construction Completed:

Date of Final Expenditure:

Date Project Complete - Project Closeout:

## **Project Justification**

---

Provide detail of the demonstrable need that this project will support.

### **Project Justification:**

Provide high-level detail on how this project will benefit riders and increase accessibility to your system.

### **Equity and Accessibility:**

If applicable, please explain the prioritization of the location of these improvements to passenger amenities/facilities

### **Improvement prioritization:**

## **Attachments**

---

**Mandatory Attachments:** Independent Cost Estimate – For all capital projects, please attach to your application email to [TRIP@drpt.virginia.gov](mailto:TRIP@drpt.virginia.gov)

**Other attachments:** Please also attach relevant planning, community outreach, and engineering/design work that may aid your proposal.
