## Price Analysis

**Grantee: Virginia Department of Rail & Public Transportation**

**VENDOR:** Gillig

**Requested Price Increase August 2024:**

Gillig is requesting a price increase for its 2024 Model Year buses and has provided its new pricing for Model Year 2025 buses from VA contract CTR010076-4

DRPT conducted a review of base model buses produced by Gillig which compared 2024 Model Year buses from the state contracts of Washington and Wisconsin.

### Peer State Comparison

### Conclusion:

After reviewing Model Year 2024 pricing based on peer states Washington and Wisconsin, it is demonstrated that Virginia, by comparison, is receiving a fair and reasonable price for the same model year and type of bus produced by Gillig. Examining the requested prices by Gillig for Model Year 2025 buses, it is determined that Virginia is approximately 9.5% lower than peers reviewed using Model Year 2024 pricing. Although we could not analyze pricing for Model Year 2025 Gillig buses since this information has not been yet made available, it is clear that Virginia will be paying significantly less for both Model Year 2024 and 2025 by comparison according to the published Model Year 2024 pricing from peer states reviewed.
