DRPT conducted a comparative review of pricing prior to awarding a contract for ADA Body on Chassis Paratransit Cutaway vehicles (**CTR017836 Vehicle BOC Paratransit**). This analysis reviews other state pricing of vehicles to determine reasonableness of the offered price of these vehicles by the dealer, Sonny Merryman. Price proposal by Sonny Merryman are for a model year price increase for ADA Body on Chassis Paratransit Cutaway vehicles: Peer State Review Summary conducted 9.1.2025 (Refer to attachments below):

Summary:

We reviewed several state contracts with the most recent pricing for Body-On-Chassis vehicles which included the states of Washington, Tennessee, Michigan, Montana, Florida, and the Las Vegas Bus Sales Dealer pricing. On average for all vehicle passenger sizes, the prices offered by the dealer Sonny Merryman, were collectively lower with all vehicle passenger sizes offered as referenced above.

Our Independent Cost Estimate conducted prior to the solicitation, established the base price of these vehicles (pending on the size and passenger quantity) to average \$136,000. The offered price of these vehicles including this most recent price increase requested by Sonny Merryman averages \$121,018, still well below the original estimated average price for these vehicles prior to the original solicitation. We therefore find the proposals of the vehicles offered to be in line with our ICE.

In conclusion, DRPT finds the proposed prices for these vehicles to be fair and reasonable based on our review of peer states' current pricing for similar base model vehicles. Also to note, there has not been a model year price increase on these vehicles since 2023.

Re: State of Virginia IFB 13086

Dear Mr. Wray,

We appreciate your ongoing partnership with Forest River Bus and your support under the State of Virginia IFB 13086. As we approach the next phase of the contract, we want to inform you of a necessary price adjustment.

Effective for all orders submitted between September 27, 2025, and September 26, 2026, we respectfully request the publicly posted 3.8% PPI-based price increase be applied. The adjustment accounts for the cost increases passed along by our component vendor base during the referenced time period. It also ensures transparency and consistency in our pricing practices, as it is supported by objective cost data from the Bureau of Labor Statistics' Producer Price Index (PPI) series WPU1413 for Truck and Bus Bodies.

We recognize the importance of cost planning and remain committed to delivering exceptional value while managing these external pressures. Should market conditions improve, we will revisit and adjust pricing as appropriate.

Thank you for your continued partnership. Please feel free to contact me with any questions.

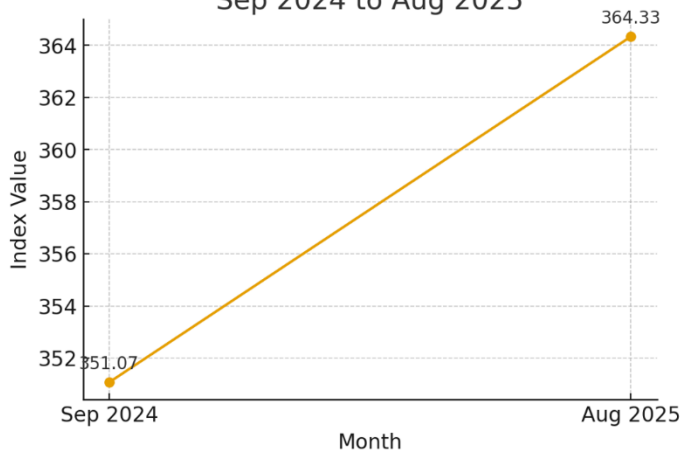

Sincerely,

Mike Anglemeyer

Comment (Optional)		Per Q&A, buses will be delivered 120-150 days after receipt of chassis.	The attached bid pricing is good for the first year orders for 30 days after submission of this bid. The reason for this is that we have reserved a small handful of VIN's for chassis that are being built in the next few weeks, and we hope to have them to Turtle Top in a couple of months with a completed bus delivery date by the end of this calendar year. (see Supplier attachments for full offer letter)	Price includes all rebates/discounts. Delivery within 120 working days NOT AVAILABLE. Delivery to be 120-150 days after receipt of chassis by the body manufacturer.
